

ENG 122 Fall 2016 Homework #05

DUE: Monday, October 24, 2016 before class in Box A in the MAE department if a paper assignment and if digital turn in it in via Canvas.

Problems

Complete the following problems in the book:

2.67, 2.68, 2.80, 2.86, 2.97, 3.9, 3.14

Submit your work to Canvas as a Jupyter Notebook (both a PDF of the final notebook results and the IPYNB notebook file itself). The final equations you derive should be typed into markdown cells in the notebook. If you want partial credit for derivations, either type the intermediate steps in the notebook, include **clear** scans of the paper work in the notebook, or drop a paper copy of just the derivations into the homework box.
